

# Measuring Capacity

## Millilitres

We can use a measuring cylinder to measure very small capacities.

We measure these in **millilitres**.

We write this as **ml**.

$$1000\text{ml} = 1\text{l}$$

## Litres

We can use a jug to measure larger capacities.

We measure these in **litres**.

We write this as **l**.

$$1000\text{ml} = 1\text{l}$$
